Simple Topic

Simple Exercise

Simple Task

Errors from Unresolved Dependencies

Optimizing (well, to say the least) error handling. Before, we raised hard errors when, for example, a dependency could not be resolved. Raising hard errors lead Sphinx to rebuilding the entire site - which is a lot and takes minutes for sites like <https://www.faschingbauer.me>.

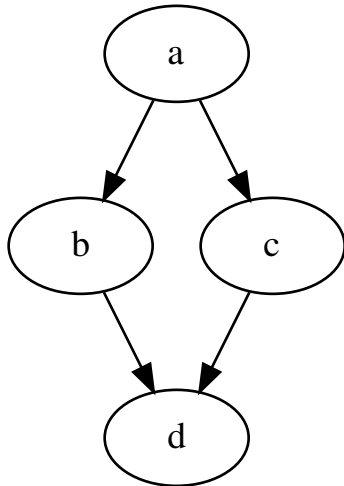

Hi

To trigger the dependency error, modify this node's dependency to something non-existing.

Lo

1.2 Trying the Graphviz Extension

1.3 Basic Functionality

1.4 Horizontal Overflow?

Try to overflow horizontally, and see what happens. Do we scroll?

OPENTRAINING

A set of [Sphinx](#) extensions that help maintain training material.

Examples:

- [Python: The Language Fundamentals](#)
- [Python: More Language Features](#)
- [Python: Project/Package Management](#)
- [Linux Driver Development](#)

Read documentation on [ReadTheDocs](#).
